SUMMARY

Results-driven Software Developer with extensive experience in designing, developing, and implementing high-quality software solutions. Proficient in full-stack development and various programming languages, including Node js, Python, PHP, and JavaScript.

EXPERIENCE

SOFTWARE DEVELOPER

FAMILY FOOD CENTER, DOHA, QATAR

October 2019 – PRESENT

- Design, develop, and maintain software applications by integrating various components and third-party programs.
- Write and modify program code to meet system requirements and user needs.
- Identify and implement code enhancements to improve system performance, scalability, security, and reliability.
- Debug and resolve complex system issues, ensuring smooth and efficient operation.
- Collaborate with cross-functional teams to develop high-quality tools and products.
- Conduct testing, documentation, and implementation of software solutions.
- Analyse risks, costs, and opportunities for improvement in software development processes.
- Optimize existing systems and processes to enhance software quality and user experience.
- Support and troubleshoot software applications, providing timely solutions to technical issues.
- Ensure that software solutions align with business objectives and technical specifications.

SOFTWARE DEVELOPER

TECHWARELAB, INFOPARK COCHIN KERALA, INDIA

AUGUST-2018 – MAY-2019

- Develop and maintain software applications that meet user and business requirements.
- Collaborate with team members to design and implement system features.
- Perform regular testing and debugging to ensure software functionality and quality.
- Optimize code for performance, reliability, and scalability in various environments.
- Troubleshoot and resolve software issues to maintain system stability.
- Assist in creating technical documentation for new and existing applications.
- Work with stakeholders to gather requirements and deliver effective software solutions.
- Stay updated on new technologies and integrate them into ongoing projects.
- Ensure software solutions are aligned with organizational goals and best practices.
- Participate in code reviews to maintain high development standards.

SKILLS

- Application Development
- Troubleshooting
- Database Management
- Frontend/Backend Development
- Project Management
- Full Stack Development
- Web Development
- Cloud Computing
- Documentation
- Collaboration
- Communication Skills
- Attention to detail
- Team work
- Version Control

EDUCATION

MASTER OF COMPUTER APPLICATION (MCA)

Mar Baselious Institute Technology,
Kollam, Kerala, 2017

B.SC COMPUTER SCIENCE

Mar Thoma College of Science &
Technology Kollam, Kerala
2013

WEB DESIGN PROJECTS

www.family.qa

<https://www.truebus.in>

<https://www.timeoutriyadh.com>

- Develop and maintain dynamic web applications that meet client specifications.
- Collaborate with design and development teams to create user-friendly interfaces and functionality.
- Troubleshoot and resolve issues to ensure smooth application performance.
- Write clean, well-structured code that enhances system efficiency and reliability.
- Conduct regular testing and debugging to maintain application stability and functionality.
- Implement updates and improvements based on user feedback and evolving project requirements.
- Ensure application compatibility across various platforms and devices.
- Assist in integrating third-party services and tools into web applications.
- Create and maintain documentation for code, system functionality, and updates.

PROJECTS DETAILS

- ❖ Project : **Family Shopping App**
Client : Family Retail Business
Technologies: Node Js, python, Oracle, MySQL, postgres, a
Typescript, aws, Redis cache, microservice, mongodb.
Description : Online supplier items delivery application
- ❖ Project : **ESS APP – FFC**
Client : Employee Self Service Mobile Application
Technologies: Node js, oracle, Typescript
Description : Online employee attendance management system
- ❖ Project : **GO-SHOPE – GO-SHOPE PVT LTD**
Client : Go-shope Pvt Ltd
Technologies: PHP, MySQL, HTML, CSS, JQuery-Ajax and Js
Description : A SaaS based PHP project where customers can
Easily buying items online.
- ❖ Project : **TRUEBUS – TECHWARE**
Client : Truebus
Technologies: Node JS, Angular JS 1, HTML5, CSS3, Bootstrap, Mysql
Description : Online bus route finding system
- ❖ Project : **LATAXI APP + ADMIN PANEL – TECHWARE**
Client : Lataxi
Technologies: Codeigniter, PHP, HTML5, CSS3, Bootstrap, Mysql
Description : A Free softec's google-based digital route planner
- ❖ Project : **TIMEOUT WEB + ADMIN PANEL – TECHWARE**
Client : Timeout
Technologies: Codeigniter, HTML5, CSS3, Bootstrap, Mysql
Description : Online restaurant management system
- ❖ Project : **FAMILY WEB APP+ MOBILE APP – FFC**
Client : family
Technologies: Magento, HTML5, CSS3, Javascript, Bootstrap, Mysql
Description : Online E-commerce shopping management system
- ❖ Project : **FAMILY PORTAL – FFC**
Client : Family
Technologies: Yii2, Oracle, Javascript, jquery, Ajax
Description : Online internal system management web application for finance,
showroom, hr management etc..

DECLARATION

I hereby declare that the above particulars of facts and information stated are true, correct and complete to the best of my belief and knowledge.

ROY RAJU
